I hereby declare, that I am familiar with general requirements of appropriate New Approach directive(s) and I declare to obey the following rules:

- to comply to general requirements of directive(s);
- to Inform the Certification Office of Oil and Gas Institute of all the changes introduced to approved types, that may have influence on the conformity with general requirements;
- to send (at Certification Office request) all the documents concerning the product subjected to EC type examination;
- to pay the fees connected with conformity assessment on the basis of received invoices;
- to make some other documents available at the request;

I declare, that any application concerning the products in question has not been lodged with any other notified body.

Place, first name and surname, date, signature and stamp:

¹ to cross out if unnecessary

Enclosure to part A:**Appliances burning gaseous fuels, directive 2009/142/EC****Efficiency requirements for new hot-water boilers, directive 92/42/EEC**

X	X	General description of appliance (technical data, settings)
X	X	Description form of appliance that include information according to example.
X	X	Conceptual designs and manufacturing drawings and diagrams of components, sub-assemblies, circuits, etc. *
X	X	Descriptions and explanations necessary for the understanding of the above, including the operation of the appliances
X	X	The list of harmonised standards, applied in full or in part and descriptions of the solutions adopted to meet the essential requirements where the standards in question have not been applied
X	X	Test reports
X	X	Results of design calculations made, examinations carried out etc.
X		Manuals for installation, maintenance and use of appliances
X		Attestations relating to equipment incorporated in the appliance or other (if applicable)
X	X	Exemplar of marking (warnings and marking to put on appliance, on the packaging and on data plate)
X	X	Declaration of conformity with Electromagnetic Compatibility directive 2004/108/EC **
X	X	Declaration of conformity with Low Voltage directive 2006/95/EC **
	X	Declaration of conformity with directive concerning the appliances burning gaseous fuels 2009/142/EC **

- The list of technical drawings and diagrams should be also attached to documentation. Documentation should be submitted in two copies.

Declarations or test report, certificate.

I hereby declare, that I am familiar with general requirements of appropriate New Approach directive(s). Additionally I hereby declare:

- to allow the auditors designated by Certification Office of Oil and Gas Institute access to the place of inspection, testing and storage in order to carry out inspection or testing;
- to provide the auditors with all necessary information;
- to keep Certification Office of Oil and Gas Institute informed about all changes of surveillance conditions;
- to send (at Certification Office request) all the documents concerning the product subjected to EC surveillance;
- to pay the appropriate fees on the basis of received invoices;
- to carry out the obligations arising from the quality system as approved and to maintain the approved quality system to ensure its continuing suitability and effectiveness

I declare, that any application concerning the products in question has not been lodged with any other notified body..

Enclosures to part B:**Appliances burning gaseous fuels, directive 2009/142/EC****Efficiency requirements for new hot-water boilers, directive 92/42/EEC****GUARANTEE OF PRODUCTION QUALITY**

		Quality system documentation including the description of:
X	X	the quality objectives, the organizational structure and responsibilities of management and of their powers with regard to appliance quality
X	X	the manufacturing processes, quality control and quality assurance techniques and systematic actions that will be used,
X	X	the examinations and tests that will be carried out before, during and after manufacture and the frequency with which they will be carried out
X	X	the method of monitoring attainment of the required appliance quality and the effective operation of the quality system
X	X	the quality records, such as inspection reports and test data, calibration data, qualification reports of the personnel concerned, etc
X	X	Documentation relating to the approved type and a copy of the EC type-examination certificate (to enclose only in case when EC type-examination certificate was issued by another notified body)
	X	All relevant information for the appliance category envisaged

GUARANTEE OF PRODUCT QUALITY

		Quality system documentation including the description of:
X	X	the quality objectives, the organizational structure and responsibilities of management and of their powers with regard to appliance quality
X	X	the examination and tests that will be carried out after manufacture
X	X	the means of monitoring the effective operation of the quality system
X	X	quality records, such as inspection reports and test data, calibration data, qualification reports of the personnel concerned, etc
X	X	Documentation relating to the approved type and a copy of the EC type-examination certificate (to enclose only in case when EC type-examination certificate was issued by another notified body)
	X	All relevant information for the appliance category envisaged

RANDOM ON-SITE CHECKS OF APPLIANCES

		Documentation including the description of:
X	X	final product inspection and testing ensuring the homogeneity of production and conformity to type
