

DESCRIPTION FORM of appliance:

NAME OF APPLIANCE

Symbol of type (series)

CATEGORY OF APPLIANCE

Destination country:

Type of gas and a pressure

Identifying data

- dimensions

- type of gas hob

- grid

 *concerns
cookers
and hobs

- control panel (indicate elements, types, manufacturer and used adjustments)

- burners (type, symbol of type, input power, manufacturer)

- nozzles (diameters, gas pressure at nozzle)

- ignition

Safety devices

- flame failure device (type, manufacturer)

- overheat cut-off device

- combustion products discharge safety device

- pressure pressostat

- gas installation (diameter, dimension of connection joint)

- water installation (diameter, dimension of connection joint)

- gas fittings (indicate elements, type, manufacturer)

- water fittings

- electrical installation (specification)
