Under Decision 2/KJOT/WB/17 of the Minister of Infrastructure and Construction, the Oil and Gas Institute – National Research Institute has been designated as:

the NATIONAL TECHNICAL ASSESSMENT BODY (KJOT)

authorised to issue National Technical Assessments (KOT) for construction products within the scope:

**ITEM 6:** **CHIMNEYS, FLUES AND SPECIFIC PRODUCTS**

Prefabricated chimneys (storey height elements), flue liners (elements or blocks), multi-shell chimney (elements or blocks), single walled chimneys blocks, kits of free standing chimneys and attached chimneys.

**ITEM 27:** **SPACE HEATING APPLIANCES**

Space heating appliances burning solid and liquid fuels.

**ITEM 28:** **PIPES, TANKS AND ANCILLARIES NOT IN CONTACT WITH WATER INTENDED FOR HUMAN CONSUMPTION**

Products for the transport/distribution/storage of liquid gas/fuel intended for the supply of building heating/cooling systems, from the external storage reservoir or the last pressure reduction unit of the network to the inlet of the heating/cooling systems of the building: piping kits, pipes, fittings, tanks, leakage alarm systems and overfill prevention devices, fittings, adhesives, joints, joint sealings, gaskets, ducts and conduits for protection, pipe/duct supports, valves and taps, safety auxiliaries.

**TECHNICAL RECOMMENDATIONS**

Moreover, the Department of Technical Assessment issues Technical Recommendations for products or product sets manufactured for permanent integration with gas grids, which area of intended applications goes beyond the area of domestic technical assessments, is not subject to certification processes and is not covered by a Polish Standard for the product, which does not have a status of withdrawn standard.
